## CUMULUS PARAGLIDING

### SKYTRAXX - GPS enabled vario

This easy to use SKYTRAXX vario comes with a high precision sensor system - The altitude sensor, for example, is accurate to within 5cm. And since this is all calibrated via GPS, there's no need for you to worry about setting launch and landing altitudes on the hill!

In addition to this, SKYTRAXX can track and log all your flight details - Ideal for uploading to GPS tracking applications on your PC or online competitions
